You can also send and receive email messages (MMS) through your GPRS/3G connection. This application is a universal tool, which means that you can use it to transfer data between your phone and your PC. Product Information Sony Ericsson Connect Mobile Messaging App is a software tool that allows the user to send and receive an SMS, store all the text messages that are saved in your phone, get the list of calls and even upload all of your contacts to your computer. The connection between the phone and the app can be established only with the help of a USB cable. When you first open the program you will see the image of a Sony Ericsson mobile phone with configuration option, which is a pretty nice visual feature. Moreover, the interface of Sony Ericsson Messenger is intuitive and easy to use, even if you happen to be a beginner when it comes to the IT world. The configuration window has a lot of options, allowing you to extract all the information you need from your SIM card or from your phone and, in the same time, allowing you to save everything you need in different formats, such as CSV, Excel or even HTML. In the lower part of the window, you will be able to see all the SMS history, while in the upper left side, you will be able to see your phone model, the number of the
