Record your desktop, or a defined area of it, as a video file. Choose from six different codecs, specify the area you want to record, and apply a variety of additional capture options. Once the video is captured, trim the segments you want, or just play the video for yourself. You can even convert the video to.avi or.wmv, and even preview its quality through the built-in video player. With this software, you can also record video directly off of your webcam. The preview feature even lets you draw on your screen and let the camera pick up the action. Office 365 is a subscription-based service offered by Microsoft. One of the most popular subscription services is the Office 365 ProPlus suite, which is available at Office.com or other online stores. Office 365 ProPlus is a cloud-based version of the basic Office 2013 suite, plus an additional set of apps to meet the needs of business users. This Office 365 download is for the PC version. Office 365 ProPlus is essentially a cloud-based version of the standard Office 2013 suite. It has all the apps in the basic version of the 2013 suite, plus a few extra-popular

apps and services that are designed specifically for the needs of business users. These include OneNote, Outlook, SharePoint, Yammer, and Lync. Microsoft can update these services as needed with automatic roll-up updates, which means they will automatically be applied to any Office 365 ProPlus installations. The additional apps in Office 365 ProPlus The Office 365 ProPlus package offers a much wider choice of apps for Microsoft Office 365 ProPlus. Here is a list of the apps: Word Excel PowerPoint Publisher OneNote Outlook SharePoint Yammer OneNote lets you take notes in a different way than before. It is a new note-taking and brainstorming app that offers a clean user interface and plenty of space to create notes with the note book. A new toolbar lets you create simple sketches and mind maps and add text to them. The Office 365 ProPlus version also has a new MS Office application, WordArt. It lets you insert text into images to create a WordArt effect. Office 365 ProPlus also has a new collaboration app for online work, OneNote Online. It is a new version of OneNote that can be shared with co-workers, business partners, or clients over the web. The application uses a new MS

SharePoint Online for synchronization.
