**Q: How to access images loaded through Glide in My Fragment? I'm using the official glide image library ( I created the whole activity in which I'll have multiple fragments. I'm facing a problem while accessing my images. I declared the global variables as I did at this example: When I try to access the images from my MyFragment, I'm getting this error: Cannot cast from 'com.bumptech.glide.Request' to 'com.bumptech.glide.loader.ImageLoader'. I think its because I have to use the variables from the global class. So, what should I do? How can I access the images loaded through Glide in MyFragment? A: In order to use the image from ImageLoader in your fragment you have to implement a Presenter as in the example you shared, but using the ImageRequest, not the ImageLoader: public class YourFragment extends Fragment { ... @Override public void onCreate(Bundle savedInstanceState) { super.onCreate(savedInstanceState); yourImageRequest.addListener(new RequestListener() { @Override**
