```
Use to generate the C# function for you, which you can then execute with a SqlCommand and returning the result of the query to a DataTable: using System; using System.Data; string sql = "SELECT * FROM data";
DataSet ds = new DataSet(); SqlDataAdapter adapter = new SqlDataAdapter(sql, new SqlConnection("Data Source=localhost;Integrated Security=sspi;Initial Catalog=dbname;Connect Timeout=5;Asynchronous
Processing=true;")); adapter.Fill(ds, "data"); DataTable dt = new DataTable(); dt.Columns.Add("data_id"); dt.Columns.Add("name"); foreach (DataRow row in ds.Tables["data"].Rows) { dt.Rows.Add(row[0].ToString(),
row[1].ToString()); } To give you some context, you may need to ask about the different parts of the code depending on what you are trying to do. Q: How can I place a UILabel on a UIImageView at the center? I am
new to Iphone app development, I want to place a UILabel on a UIImageView at the center of it. This is the result that I want to get. After loading the image using this code UIImage *image = [UIImage
imageNamed:@"60.png"]; I loaded the image on UIImageView. [tileView setImage:image]; I want to place the UILabel at the center. A: Here you go: CGRect frame = tileView.frame; frame.origin.x = (frame.size.width
- label.frame.size.width)/2.0; frame.origin.y = (frame.size.height - label.frame.size.height)/2.0; tileView.frame = frame; tileView.contentMode = UIViewContentModeCenter; tileView.layer.masksToBounds = YES;
tileView.layer.cornerRadius = 5; tileView.clipsToBounds = YES;
```
